PLUGIN CHECKLIST

Follow these steps to find better plugins.

Make a list of features you need for your website.

Search for a variety of plugins for each feature.

Start with highly rated plugins that have over 100,000 active installs.

List the top 10 plugins you find for each feature.

Read each plugin's FAQs, documentation, and check tutorials.

Search for additional reviews or articles on your top 5 picks.

Narrow down your list to the top 3 plugins for each feature.

Install and activate the first plugin for each feature and test.
